

BATTLE TESTED

Developed for US Special Operations Forces.

The "battle-tested" KMW2030 lightweight man-portable unit has proven to be a real lifesaver with the US Army, Navy, Marines, Coastguard, and FEMA. And, it is JITC certified and has been tested to meet MIL-STD 810F.

This hard-working powerhouse covers the entire 30 – 512 MHz frequencies including SATCOM, at a power level of 125 watts. The KMW2030 boosts 2 – 20 watts of radio power to 125 watts. It has adjustable output power and it operates from 24Vdc. Six filters assure that the KMW2030 meets MIL-STD 461-E for harmonics at -63 dBc and performs transmit/receive switching. Also available: the KMW1030M6, 30 – 512 MHz, 12 and 20 watt configurations and the KMW2050, 225 – 400 MHz, 200 watts.

AR Modular RF is uniquely capable of creating customized variants of our amplifiers to meet your precise needs. And, all products are backed by the best comprehensive warranty in the industry.
